EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: § 1, NRS 391.019.

A REGULATION relating to educational personnel; revising provisions relating to an endorsement in recognized fields of specialization or areas of concentration for secondary education; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. Those regulations must require an applicant for a license to teach middle school or junior high school education or secondary education to demonstrate proficiency in a field of specialization or area of concentration by successfully completing course work prescribed by the Department of Education or completing a subject matter competency examination prescribed by the Department with a satisfactory score. (NRS 391.019) Existing regulations authorize the Superintendent of Public Instruction to issue an endorsement in certain recognized fields of specialization or areas of concentration for middle school or junior high school education or secondary education to a person who: (1) holds a certain license to teach; and (2) has passed a certain competency examination on the subject matter of the applicable field of specialization or area of concentration. (Section 1 of LCB File No. R119-22) This regulation eliminates provisions which only authorize the Superintendent of Public Instruction to issue such an endorsement for secondary education for a field in academic education, thereby authorizing the issuance of such an endorsement for a field in academic education or career and technical education.

Section 1. Section 1 of LCB File No. R119-22 is hereby amended to read as follows:

Section 1. The Superintendent of Public Instruction may issue an endorsement for middle school or junior high school education pursuant to NAC 391.111 or an endorsement for secondary education, for a field ~~[in academic education]~~ described

**PROPOSED REGULATION OF THE COMMISSION ON
PROFESSIONAL STANDARDS IN EDUCATION**

LCB File No. R127-26

June 25, 2026

EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §§ 1-3, NRS 391.019.

A REGULATION relating to educational personnel; revising the subjects recognized for an endorsement to teach middle school or junior high school education; revising the requirements for the issuance of a secondary license with an endorsement in career and technical education; revising the requirements for renewing certain business and industry endorsements; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. Existing law also requires the Commission to adopt regulations: (1) identifying fields of specialization in teaching which require the specialized training of teachers; and (2) setting forth the educational requirements a teacher must satisfy to qualify for an endorsement in each field of specialization. (NRS 391.019) Existing regulations recognize computer science as a subject for an endorsement of a license to teach middle school or junior high school education. (NAC 391.111) **Section 1** of this regulation removes computer science as a recognized subject for such an endorsement.

Existing regulations require a person seeking a secondary license with an endorsement in career and technical education to: (1) hold a bachelor’s degree in education with a major or minor in career and technical education or a bachelor’s degree that is aligned to a subject area for which a program of career and technical education may be offered; and (2) complete 23 semester hours of credit of certain course work. (NAC 391.120) **Section 2** of this regulation: (1) reduces the required semester hours of credit to 22 hours; and (2) eliminates the requirement to complete a certain amount of course work in career development and work-based learning and management of pupil organization in career and technical education.

With certain exceptions, existing regulations generally require a person who desires to renew a business and industry endorsement for the first time to provide proof that the person has received credit for 12 semester hours of specified course work or the equivalent number of hours of professional development. (NAC 391.425) **Section 3** of this regulation: (1) reduces the required semester hours to 6 hours; and (2) eliminates the requirement for a person to provide proof that he or she has received credit for a certain amount of semester hours or professional development in career development and work-based learning and management of pupil

organization in career and technical education. Additionally, **section 3** eliminates certain exemptions concerning the renewal of a business and industry endorsement rendered obsolete by the elimination of such a requirement to provide such proof.

Existing regulations exempt a person who desires to renew a business and industry endorsement for ethnic music, ethnic dance or dance performance from the general requirement to provide proof of the receipt of credit for a certain amount of semester hours or an equivalent amount of professional development if the person provides proof that he or she has received credit for 12 semester hours of specified course work. (NAC 391.425) **Section 3** reduces the required semester hours to 6 hours and revises the required course work for the renewal of endorsements for ethnic music, ethnic dance or dance performance.

Existing regulations recognize musical instrument technology and repair as a program area for which a business and industry endorsement may be issued. (NAC 391.420) **Section 3** exempts a person who desires to renew a business and industry endorsement for musical instrument technology and repair from the general requirement to provide proof of the receipt of credit for a certain amount of semester hours or an equivalent amount of professional development if the person provides proof that he or she has received credit for 6 semester hours of prescribed course work, including 3 semester hours of: (1) course work that includes classroom management; and (2) teaching methodology for career and technical education or secondary education.
