SMALL BUSINESS IMPACT STATEMENT
PURSUANT TO NRS 233B.0608

DATE: September 3, 2026

RE: Workshop to Solicit Comments on Proposed Amendments to NAC Chapter 387 and 389

The proposed regulation regarding the repeal of reporting measures that are burdensome, duplicative, or no longer responsive to modern educational systems is not likely to impose a direct or significant economic burden upon a small business, or directly restrict the formation, operation or expansion of a small business. A concerted effort was made to determine any economic burden. All relevant materials were reviewed, and the Department considered its history of implementing similar regulations; the proposed changes are within the scope of the Department's activities and present no significant cost of enforcement. Comment has not been solicited from small businesses, and no summary of their response is provided, because small businesses are not impacted by this regulation and thus no burden or adverse economic impact can be assessed.

I, Victor Wakefield, certify that, to the best of my knowledge or belief, a concerted effort was made to determine the impact of the regulation on small businesses and that the information contained in this statement is accurate.

**PROPOSED REGULATION OF THE
STATE BOARD OF EDUCATION**

LCB File No. R163-26

July 27, 2026

EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §§ 1 and 3, NRS 385.080, 388A.105, 388A.110 and 388C.060; § 2, NRS 385.080 and 388.360.

A REGULATION relating to education; revising requirements for the budget of charter schools and university schools for profoundly gifted pupils; revising provisions relating to career and technical education; repealing regulations relating to special education program units; repealing regulations relating to charter schools and university schools for profoundly gifted pupils; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Education to adopt regulations as necessary for the execution of its powers and duties. (NRS 385.080) Existing law also: (1) designates the State Board as the sole state agency responsible for the administration of career and technical education; and (2) authorizes the State Board to adopt regulations relating to career and technical education. (NRS 388.360) Existing regulations provide that the State Board will request the Superintendent of Public Instruction to: (1) annually present to the State Board the list of industry recognized credentials that the Executive Director of the Governor's Office of Workforce Innovation identifies pursuant to existing law; and (2) require school districts to report the number of pupils who earn such credentials. (NAC 389.800) **Section 2** of this regulation removes this provision.

Existing regulations provide that, when the Legislature makes an appropriation for discretionary special education program units, the State Board will reserve at least three units allocated for each fiscal year for programs which serve pupils from more than one school district and will allocate any remaining units to meet the needs that are unique to particular school districts that cannot be satisfied by existing special education program units or federal or local money. Moreover, existing regulations require the Superintendent of Public Instruction to notify all school districts in this State of the availability of such units and to invite the districts to submit applications for the units. (NAC 387.400) Existing regulations also: (1) require a school district to apply for special education units to the Superintendent of Public Instruction before the beginning of the school year, except under certain circumstances; and (2) prescribe the required contents of such applications and the circumstances that a school district may use to show it has a unique need. (NAC 387.410) Finally, existing regulations provide that special education

program units that are awarded pursuant to an application for such units expire after 1 year. (NAC 387.420) **Section 3** of this regulation repeals these provisions.

Existing law requires the Department of Education to adopt regulations concerning certain matters relating to charter schools and authorizes the Department to adopt regulations as it determines are necessary to carry out the provisions of law relating to charter schools. (NRS 388A.105, 388A.110) Specifically, existing law authorizes the Department to adopt regulations that prescribe the: (1) procedures for accounting and budgeting; and (2) requirements for performance audits and financial audits of charter schools. (NRS 388A.110) Existing regulations prescribed by the State Board: (1) require the governing body of each charter school and the governing body of each university school for profoundly gifted pupils to, for each fiscal year, compile a report concerning the capital improvements owned, leased or operated by the charter school or university school for profoundly gifted pupils; and (2) set forth the requirements for the preparation and submission of such reports. (NAC 387.710) **Section 3** repeals this provision.

Existing regulations require a charter school or university school for profoundly gifted pupils which expends more than \$6,000 on activities intended to influence the passage or defeat of legislation during a legislative session to file a supplemental report with the Department within 60 days after adjournment sine die of the session. (NAC 387.750) **Section 3** repeals this provision.

Existing regulations require the budget of a charter school and a university school for profoundly gifted pupils to include, without limitation, a separate statement of the anticipated expenses relating to activities designed to influence the passage or defeat of any legislation. (NAC 387.715) **Section 1** of this regulation makes a conforming change to remove this requirement from the budget.

Section 1. NAC 387.715 is hereby amended to read as follows:

387.715 Each budget of a charter school and each budget of a university school for profoundly gifted pupils must include:

2. Detailed estimates of expenditures and other uses of money for the budget year classified in a manner and on forms prescribed by the Department of Taxation for use by local governments.

(d) A change has occurred in the financial resources available to the school district and the change will result in its inability to serve a substantial number of pupils.

4. The Superintendent shall review each application before submitting it to the State Board of Education for its approval or disapproval. The Superintendent shall notify the applicant of the Board's action.
